From Data to Dollars:
Turning Your Business Impact into Funding

Join us for a free, hands-on workshop designed to help Jacksonville businesses and community organizations access more city, state, and federal funding—by capturing, using, and sharing the data you already generate, in the right way.

Using the N3XUS platform methodology grounded in sustainability, social value, and community growth we'll show you:
How to uncover funding incentives and grants you may be missing
What funders and public agencies actually look for in impact data
How simple, practical data capture can unlock new revenue and partnerships
You'll hear real-world case studies from organizations in Europe and the Middle East that have successfully increased funding, improved reporting, and strengthened community outcomes using this approach.

Exclusive opportunity: Attendees will be invited to register their interest in a free Jacksonville pilot of the **N3XUS** platform, purpose-built for small businesses and community organizations
